Care Cards **2****Pfizercillin**

Overdue 27m 04s

Pfizercillin is used to treat anxiety and panic disorders. It belongs to a class of medications called benzodiazepines which act on the brain and nerves (central nervous system) to produce a calming effect. It works by enhancing the effects of a certain natural chemical in the body (GABA).

New!

Hey sis, I'm flying in on Tuesday to see you. My flight gets in real late, so I'm going to go straight to the house and then come to the hospital in the morning. Let me know if you need anything from the house and I'll bring it to you. Love you.

From

Hey mom,  
wanted to  
about you.  
speedy re  
to visit you
